DISCOVER - BOOK - ENJOY

The Platform Book.

Every seat. Every sale. Every door.

Ticketing, interactive seating & event management — one platform

A guided tour of the Eventsli experience for attendees, organizers and venues across Canada and the United States.

eventsli.com | info@eventsli.com

Eventsli
DISCOVER - BOOK - ENJOY

One platform, from first click to front door.

Eventsli brings discovery, ticketing, interactive seating, payments and check-in together in one modern product. Attendees find the night they want and choose the exact seat. Organizers build, sell and admit without stitching five tools together. This book walks through the real product — every screen in it is an authentic capture of the real product, populated with demonstration data.

CONTENTS

01 **Platform at a glance** 03

02 **The attendee experience** 04
Discovery · Event pages · Seat maps in 2D, 3D & 360° · Checkout · Tickets · Mobile

03 **The organizer suite** 12
Dashboard · Event builder · Venue Studio · Ticket types · Branding · Orders

04 **Event day** 20

05 **Money, payments & payouts** 22

06 **Platform control** 23

07 **Trust & engineering** 24

08 **Why Eventsli** 25

ABOUT THIS BOOK

Screens show **Northlight Live**, a demonstration organizer, running nine events — from a 1,231-seat symphony gala in Toronto to a festival in Vancouver and a comedy night in Chicago.

Eventsli
DISCOVER - BOOK - ENJOY

Everything an event needs. Nothing it doesn't.

Six capabilities that usually live in six different products — designed as one system, sharing one inventory, one ledger and one source of truth.

1. DISCOVER

A storefront with search by event, artist, venue, city and date, 24 categories, location-aware "near you" and saved events.

2. CHOOSE THE EXACT SEAT

Interactive maps with seats, rows and tables — explored in 2D, a live 3D room and a 360° view from the seat itself.

3. PAY WITH CONFIDENCE

Seats held while you pay, every fee shown before payment, card payments through the organizer's own Stripe account.

4. ADMIT AT THE DOOR

Instant e-tickets with signed QR codes, a no-install web scanner, shared door devices and offline admission.

5. BUILD & SELL

A guided event builder, the Venue Studio, ticket types, discounts, branding, launch kits and an AI event creator.

6. RUN THE BUSINESS

Live revenue, orders, attendees and door sales — plus an admin console for approvals, fees, markets and storefront.

THE ATTENDEE JOURNEY — UNDER THREE MINUTES

1. **Discover** — Find the night on the storefront or a shared link.
2. **Preview** — See the room in 3D and the view from the seat.
3. **Choose** — Tap seats, a whole table, or a ticket type.
4. **Pay** — Seats held while a secure checkout completes.
5. **Enjoy** — The ticket arrives instantly. Scan at entry.

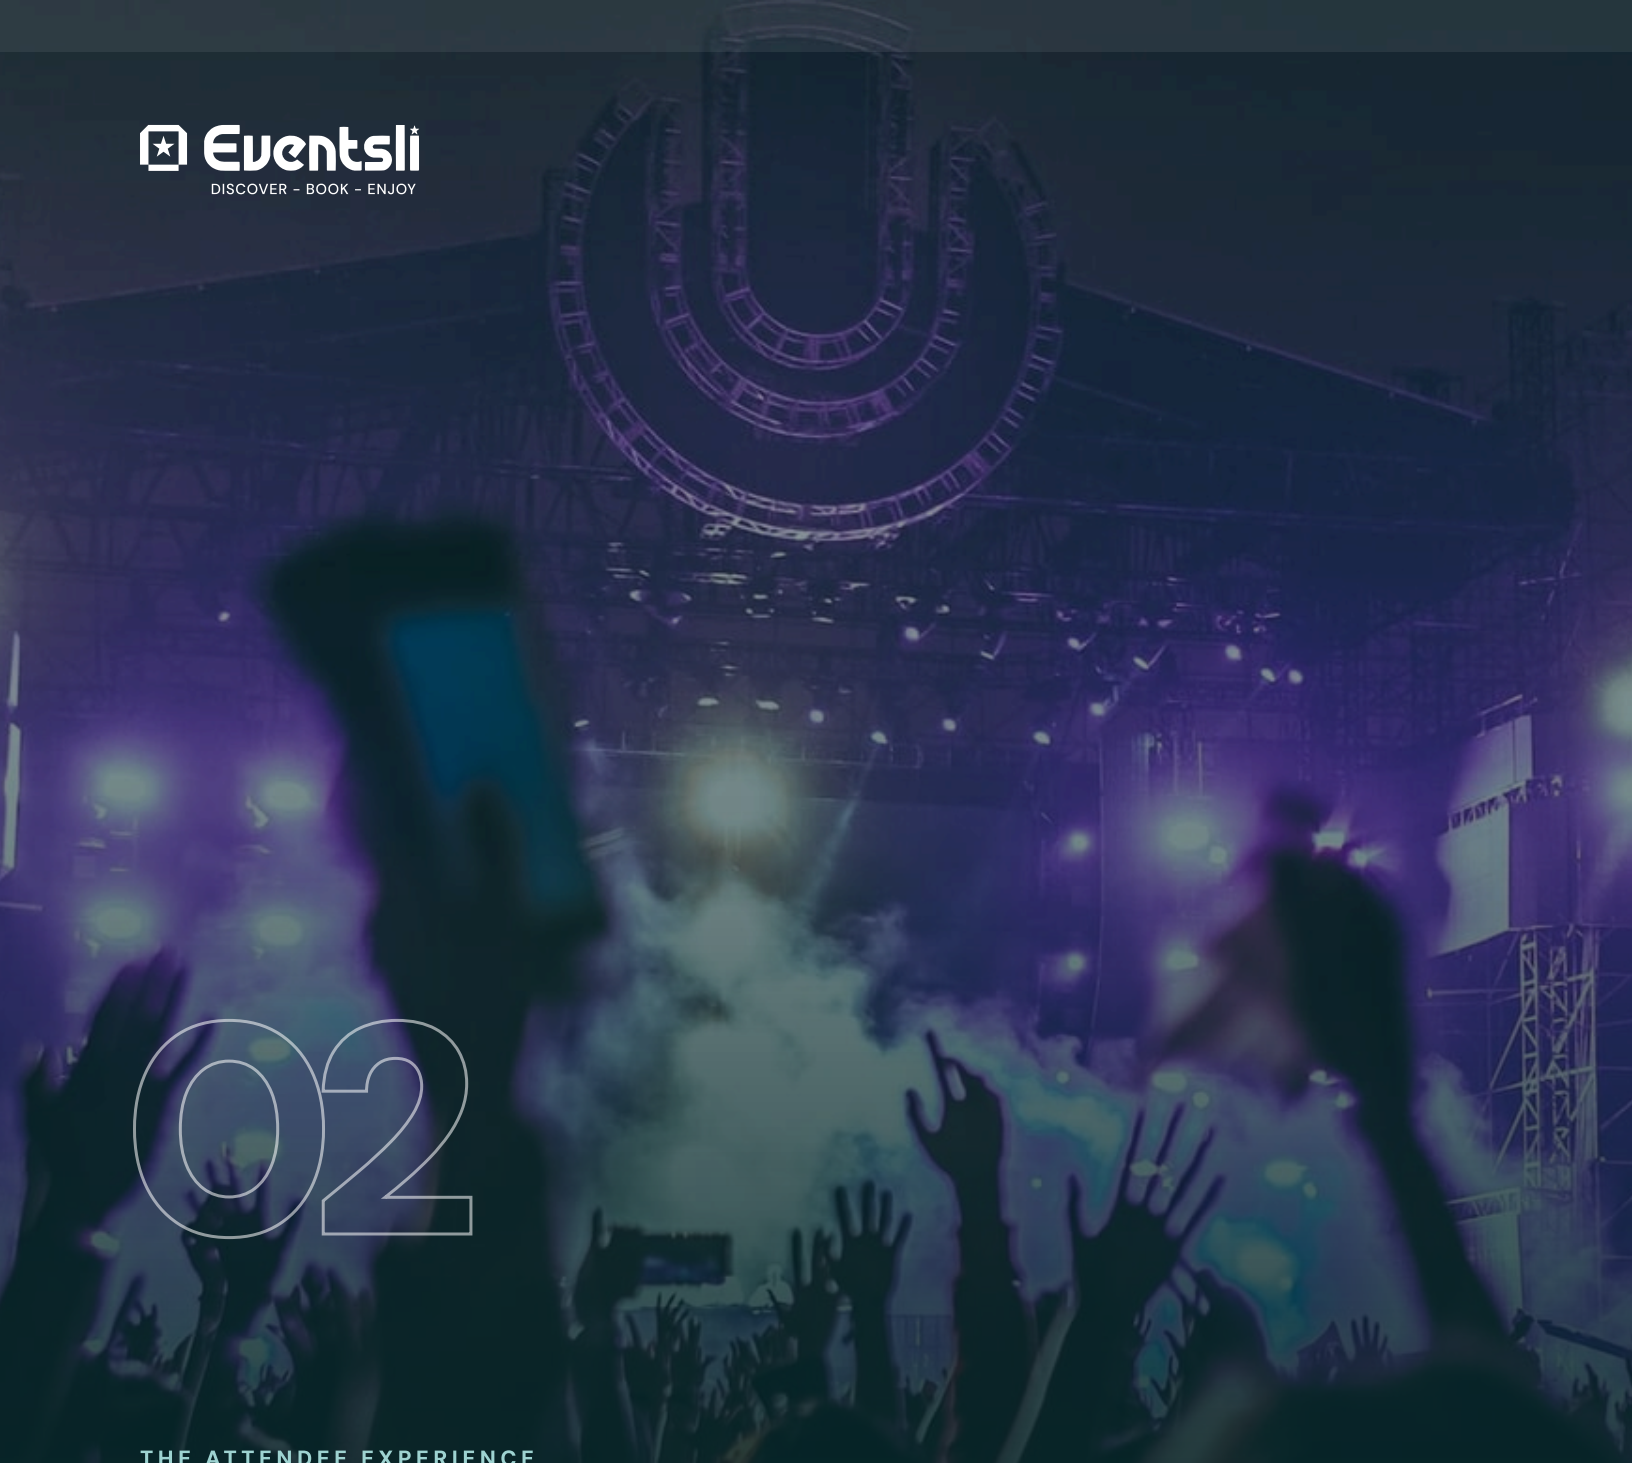

2D·3D·360° — Three ways to choose a seat — on every reserved event

CA + US — Two markets, CAD and USD, one platform

1.5% — Default Eventsli commission — never hidden in the ticket price

1,700+ — Automated tests guarding money, seats and the door

Eventsli

02

THE ATTENDEE EXPERIENCE

Discover. Book. Enjoy.

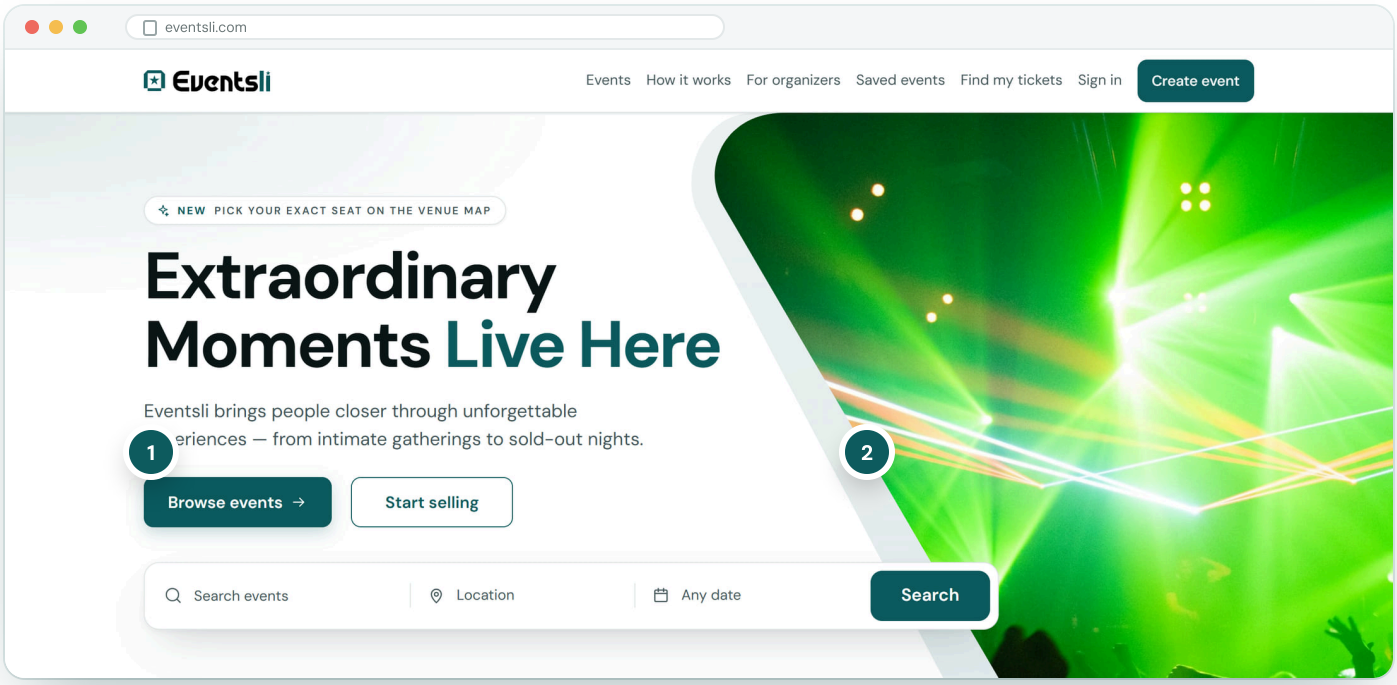

From the first scroll to the seat itself, every step is designed to answer one question before the buyer asks it: *what will my night look like?*

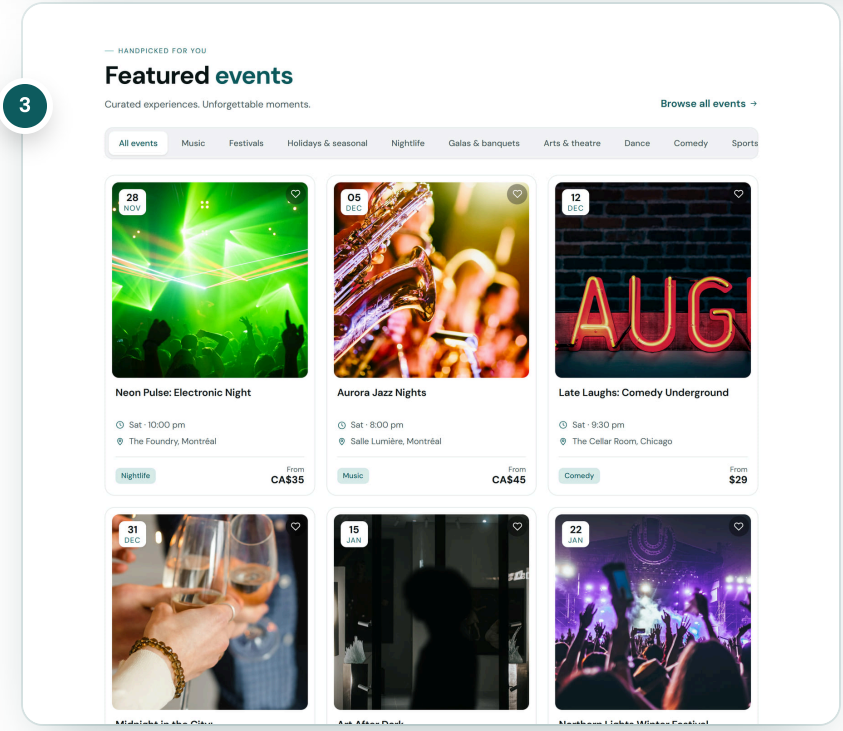

★ DISCOVERY ★ EVENT PAGES ★ SEAT MAPS ★ CHECKOUT ★ TICKETS ★ MOBILE

Eventsli
DISCOVER - BOOK - ENJOY

A storefront that sells the night.

Big imagery, curated rails and search that understands how people look for events — by name, by city, by date or simply "near me".

1 Hero that adapts
Headline, imagery and calls-to-action are edited by the team in the admin console — with separate desktop and phone artwork.

2 Search three ways
Event, artist or venue · city · date. Popular shortcuts and a "near you" mode that rounds location to about 100 m and never stores it.

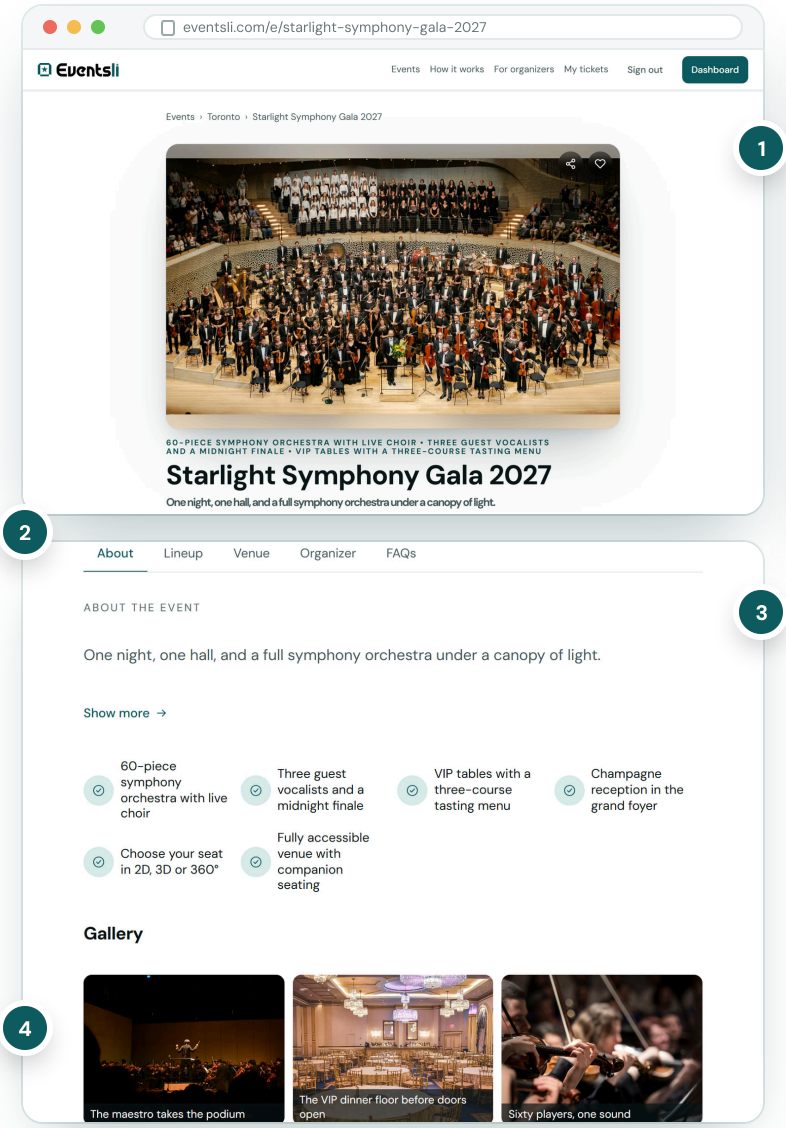

3 Curated rails & 24 categories
Featured events with date badges, venue, city, category and "from" price — filterable from Music to Galas, Comedy and Tech.

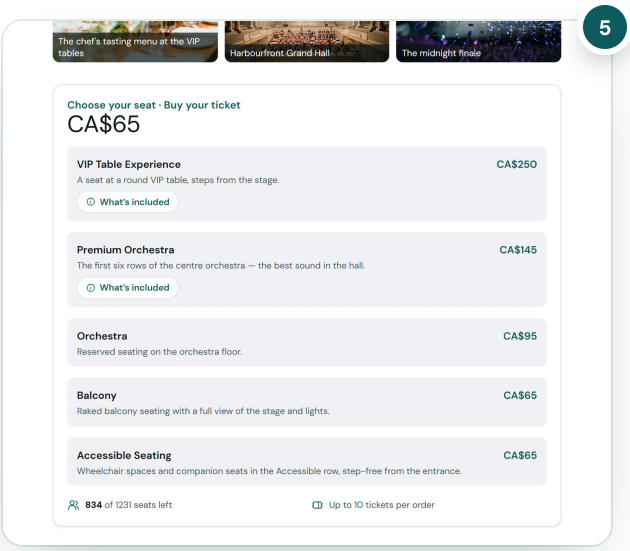

★ Save for later
A heart on every card builds a personal list in My account.

Eventsli
DISCOVER - BOOK - ENJOY

Every event gets a flagship page.

Built from what the organizer enters once — and engineered to convert: the facts people scan for first, rich media, live availability and a booking bar that is always one tap away.

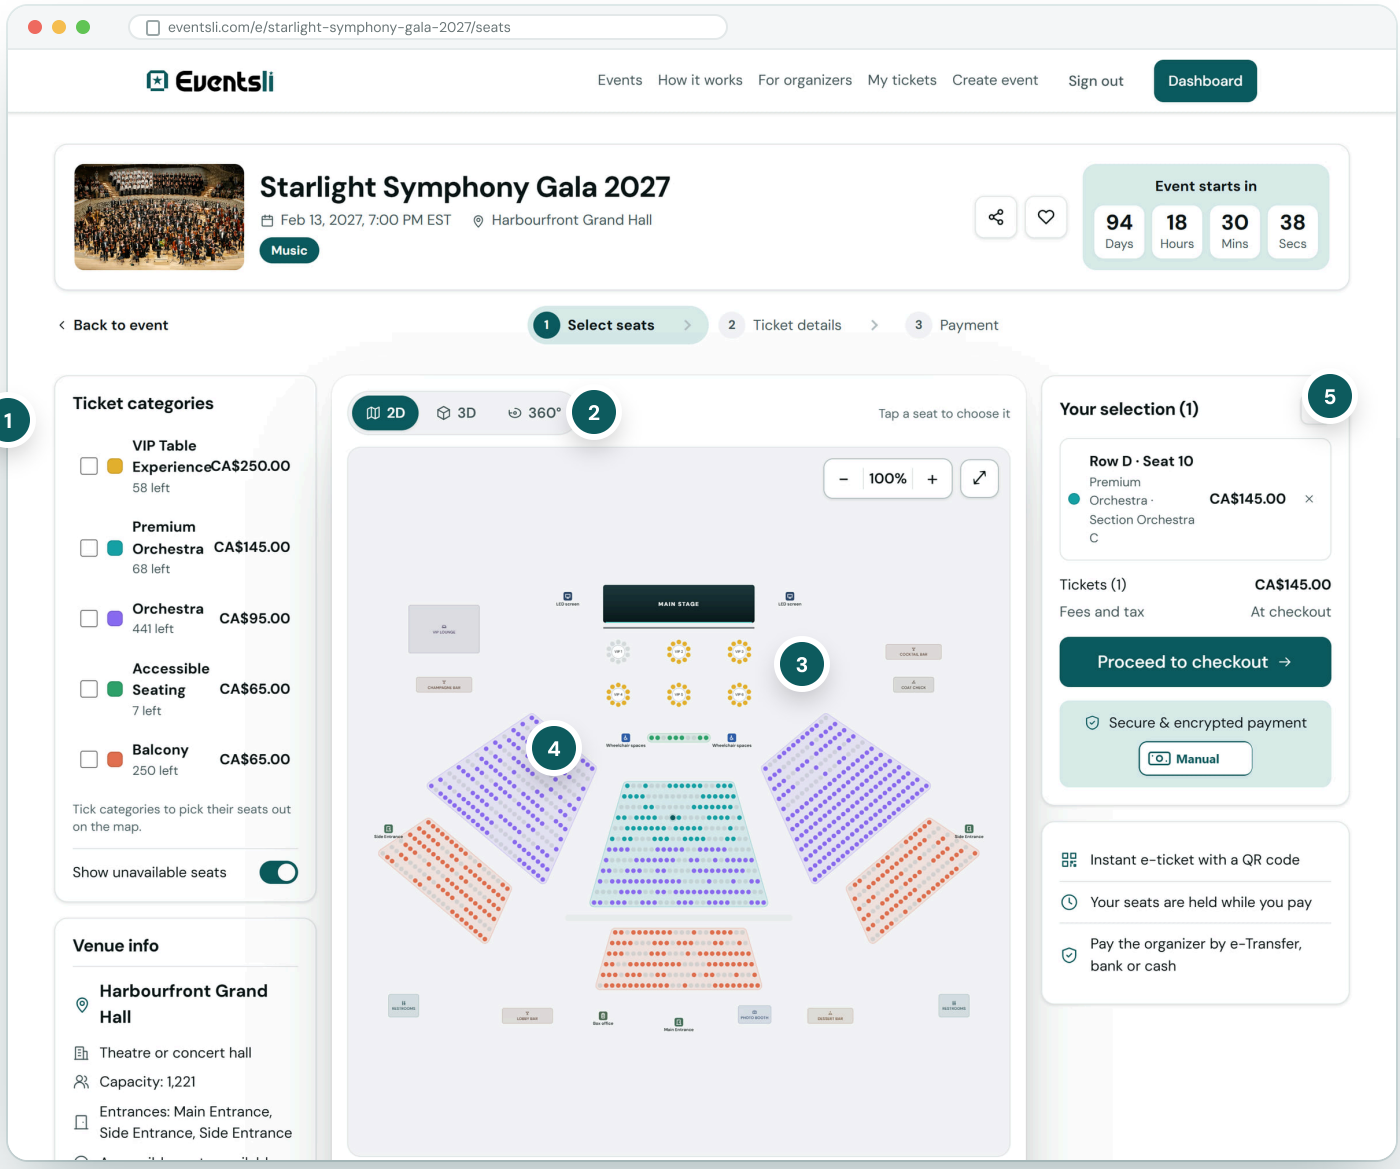

1. **Cover, share & save**
   Full-width artwork with one-tap sharing and saving.
2. **Highlights first**
   Up to 12 scannable facts above the fold.
3. **The booking bar**
   "From CA$65 — Choose your seats" follows the reader down the page.
4. **Gallery, lineup, venue, FAQs**
   Photos and video, schedule, map pin, policies and organizer profile.
5. **Live availability**
   Every ticket type with its price, "What's included" and seats left, updated live.

Eventsli
DISCOVER - BOOK - ENJOY

Pick the exact seat.
Know it's yours.

The seat map is the heart of Eventsli. Sections, rows, round VIP tables, accessible spaces, bars and entrances are drawn to scale — and every seat is a live, tappable piece of inventory.

1 Price categories

Colour-coded tiers with seats left. Tick one to light up only its seats.

2 2D · 3D · 360°

Switch views at any time without losing the selection.

3 Tables, whole or by seat

Book a full VIP table for ten, or just one chair at it.

4 Accessible by design

Wheelchair and companion spaces, step-free details, screen-reader labelled seats.

5 Held while you pay

Your selection, the running total and a clear path to checkout.

Eventsli
DISCOVER - BOOK - ENJOY

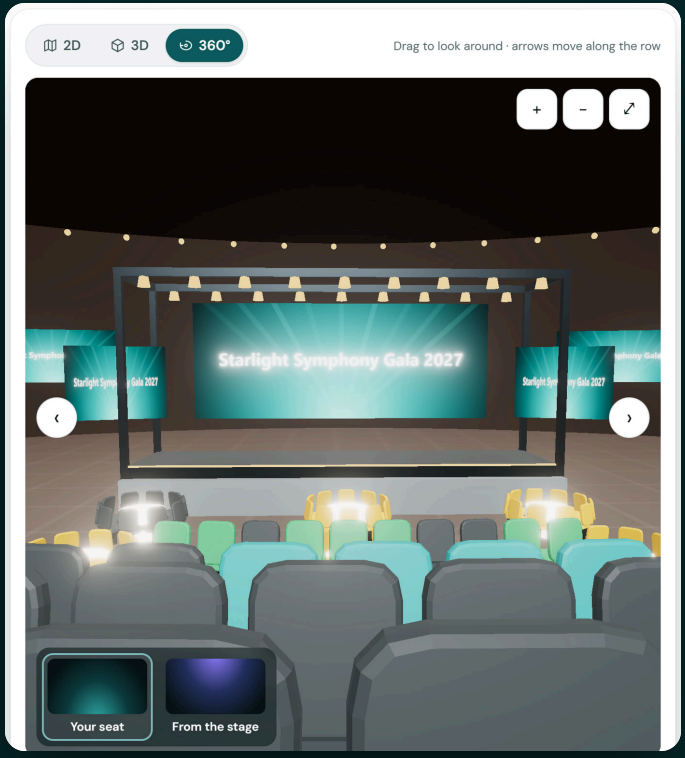

See the room. Sit in the seat.

Eventsli builds a live 3D model of the venue straight from the organizer's seating map — stage, screens, lighting and every row. Then it puts the buyer in the chair with a 360° view from the seat they're about to buy.

3D room

Orbit, zoom and tap any seat. Colours match the price categories.

360° from your seat

Look around, step along the row, compare "your seat" and "from the stage".

Generated, not modelled

No 3D artist required — the room is built from the 2D layout automatically.

Real panoramas too

Organizers can attach their own 360° photos to rows and sections.

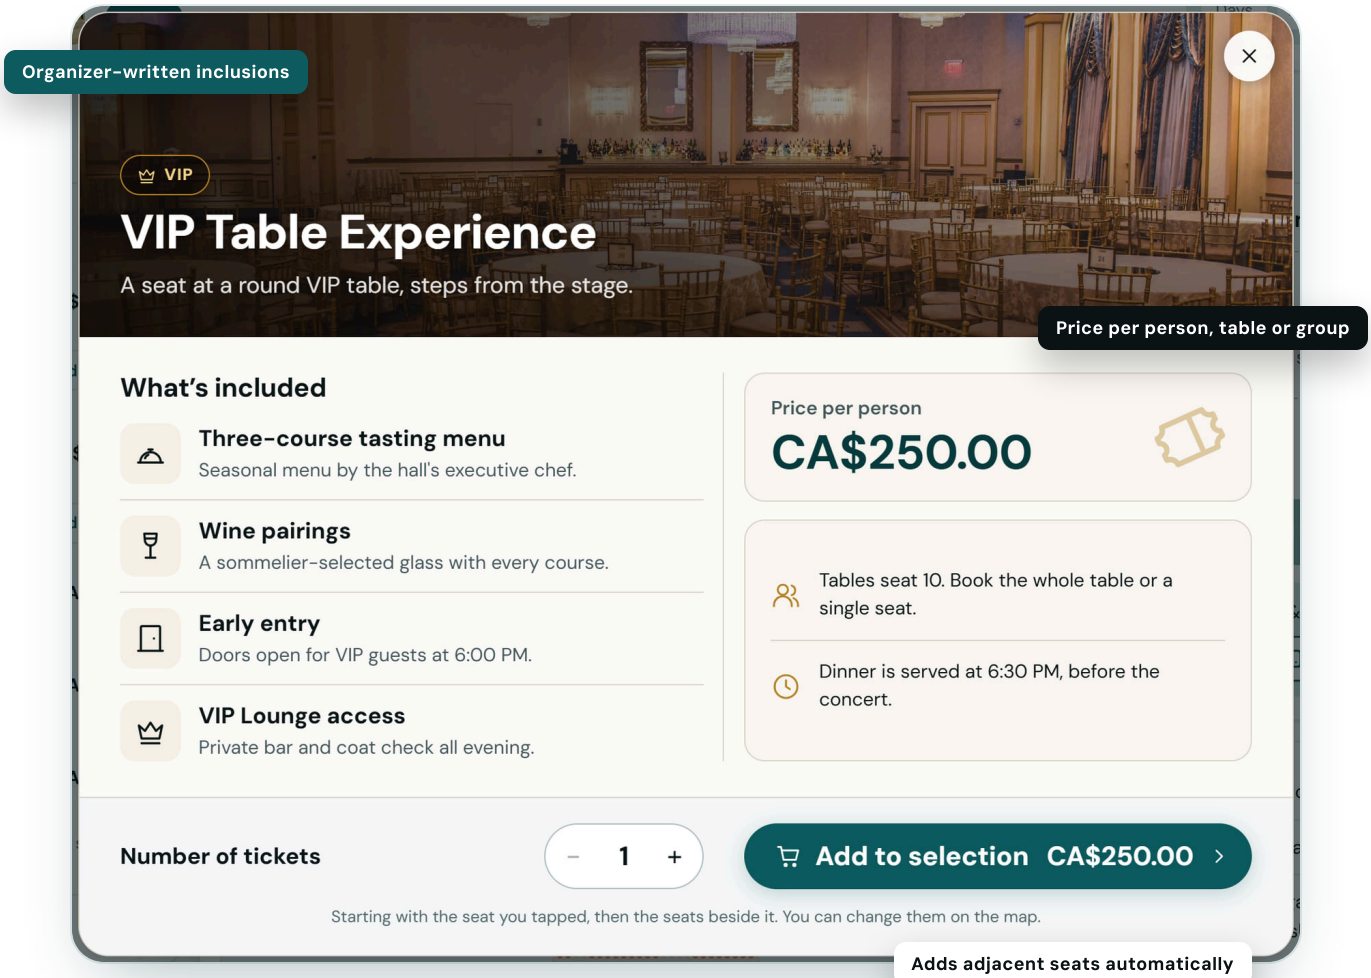

Fewer refunds

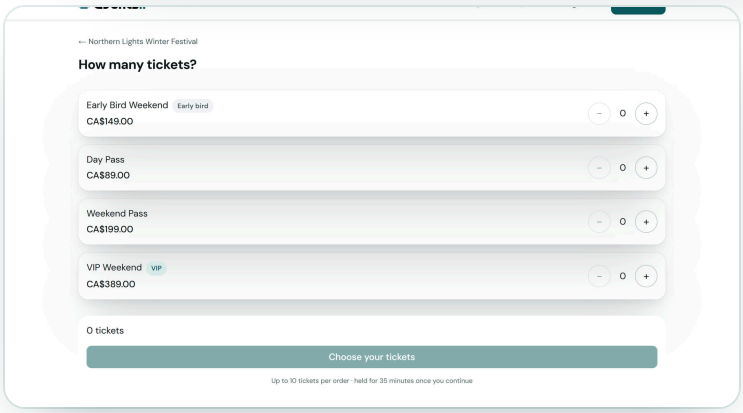

Buyers who have seen the view don't ask "where exactly was I sitting?"

Eventsli
DISCOVER - BOOK - ENJOY

Show what's included before they pay.

Premium tiers sell on detail. Organizers describe each ticket type once — photo, inclusions, notes and price unit — and Eventsli presents it as a beautiful card at the moment of choice.

General admission, just as polished

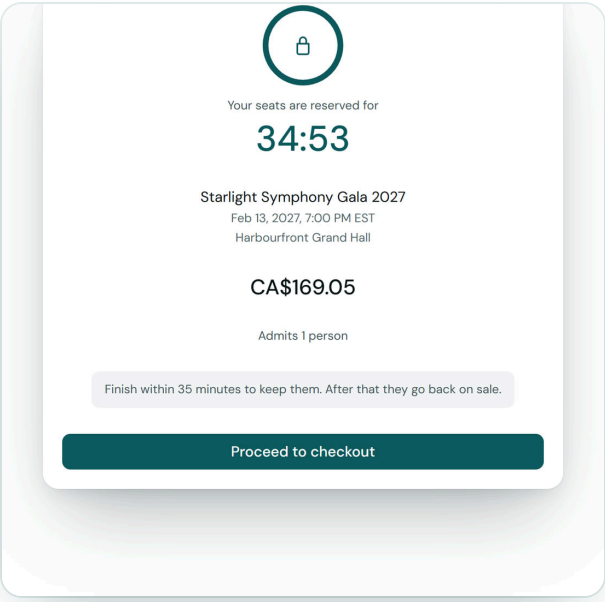

Festivals, conferences and club nights sell by ticket type, with quantity steppers, early-bird and VIP tiers, sales windows and per-order limits.

Standard | General | VIP | Early bird | Complimentary | Hidden / invite

Tier links take a buyer straight to a pre-selected ticket type — perfect for a VIP invitation or an early-bird post.

Eventsli
DISCOVER - BOOK - ENJOY

Honest checkout. Instant tickets.

Seats are reserved, visibly

A live countdown shows how long the seats are held. Finish in time and nobody else can take them; walk away and they return to sale automatically.

Every fee before payment

Face value, event tax and the payment fee are itemised up front. The organizer chooses who bears the card fee — never a surprise at the last step.

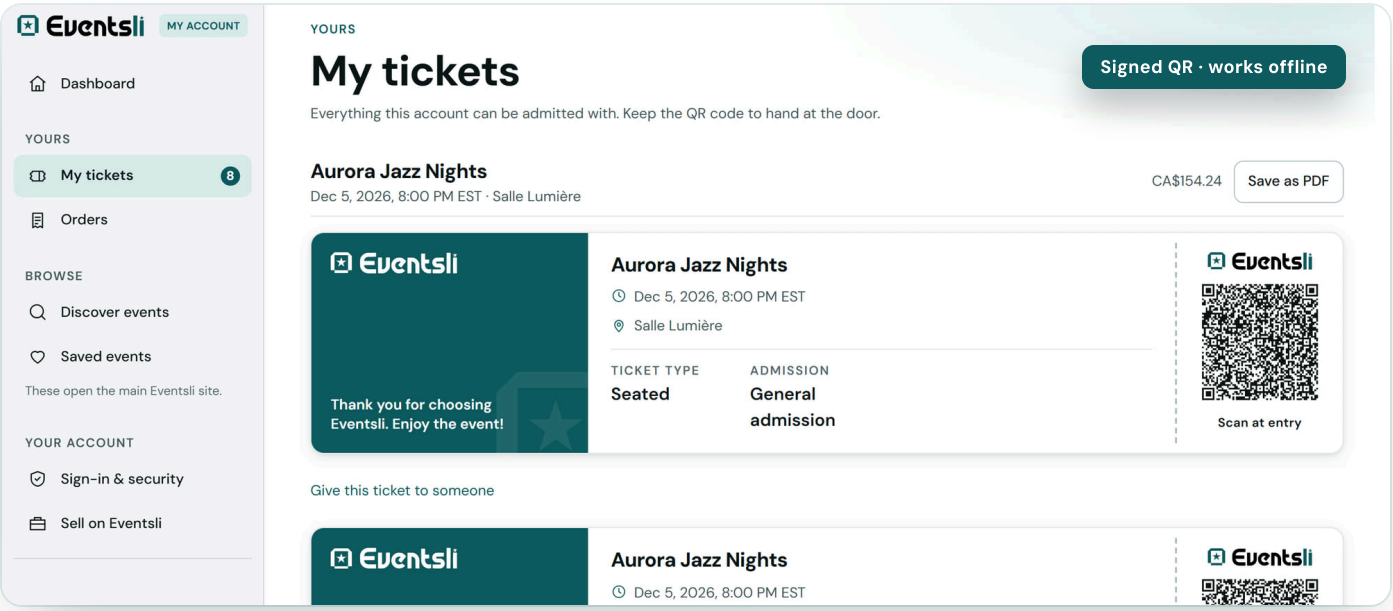

Card or manual payment

Secure card checkout via Stripe, straight to the organizer's account — or e-Transfer, bank transfer and cash, confirmed by the organizer.

Discount codes

Percentage or fixed-amount codes, with usage limits, applied at checkout.

THE EVENTSLI TICKET

Instant e-ticket

In My tickets the moment payment clears.

Save as PDF

Print-ready, one tidy page per order.

Give it to someone

Secure transfer — the old code stops working.

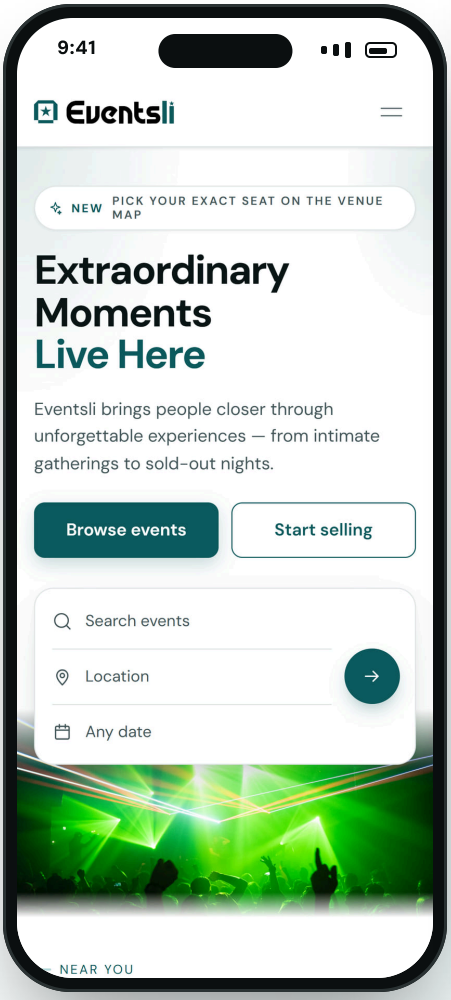

Lost the email?

Resent to the address on the order, never another.

Eventsli
DISCOVER - BOOK - ENJOY

Designed for the phone in every pocket.

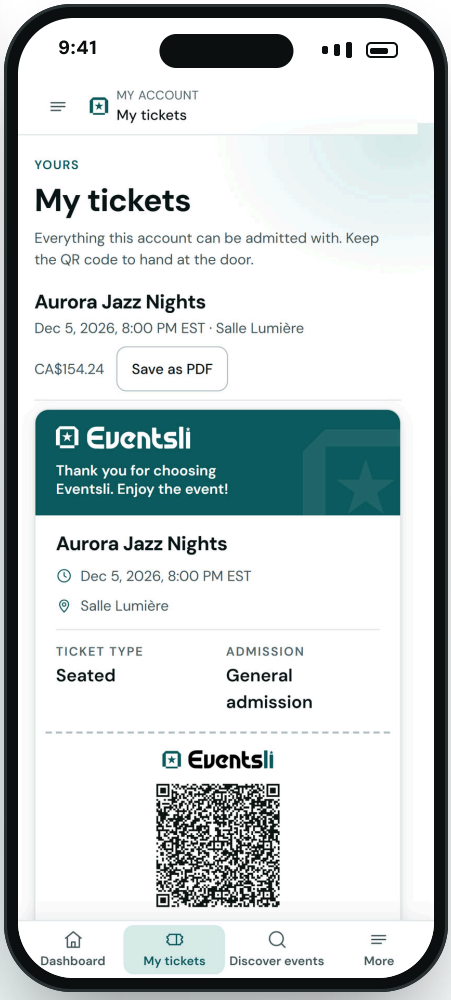

Most tickets are bought on a phone, often from a shared link. Every Eventsli screen is built mobile-first — the same features, laid out for a thumb.

Storefront & search

03

THE ORGANIZER SUITE

Build it once. Sell it everywhere.

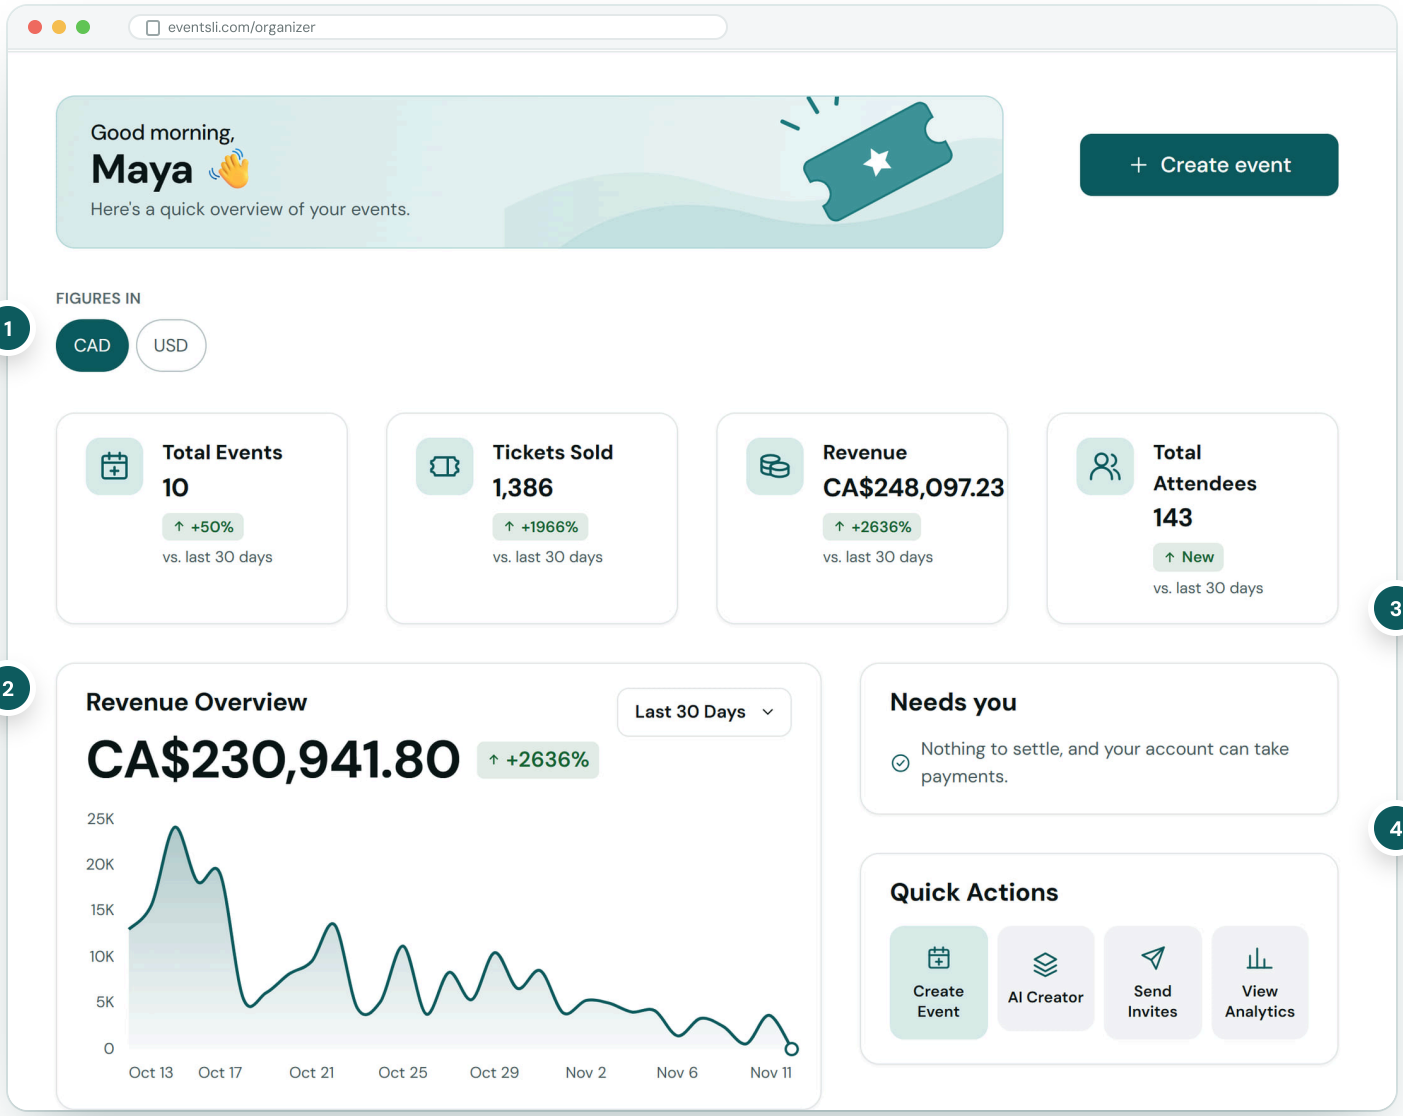

A guided workspace that takes an organizer from a blank page to a live, beautifully presented event — with seating, pricing, branding and marketing assets — in an afternoon.

★ DASHBOARD ★ EVENT BUILDER ★ VENUE STUDIO ★ TICKETS ★ BRANDING ★ ORDERS

Eventsli
DISCOVER - BOOK - ENJOY

The whole business, at a glance.

Sales, attendance and what needs attention — the moment an organizer signs in. Figures switch between CAD and USD for organizers selling in both markets.

1 Headline KPIs
Events, tickets sold, revenue and attendees admitted — each with its 30-day trend.

2 Revenue overview
Daily sales across every event — here CA$230,941 in the last 30 days.

3 Needs you
Anything blocking a sale surfaces first, with the fix one tap away.

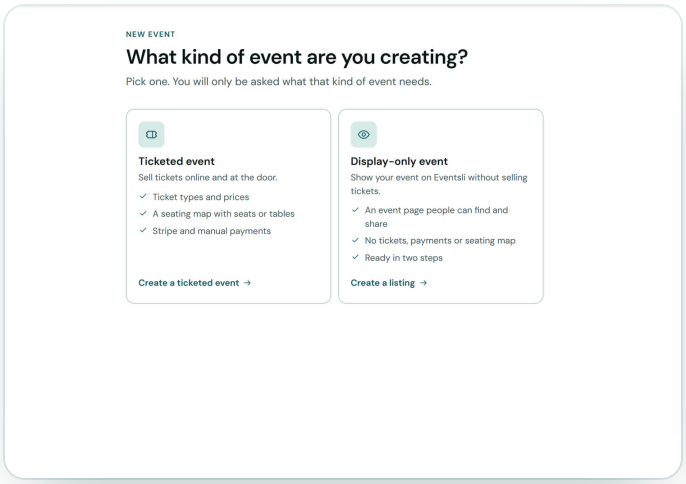

4 Quick actions
Create an event, start the AI Creator, send invites, open analytics.

TICKETS SOLD	REVENUE	ADMITTED	EVENTS
1,386	CA$248k	143	10

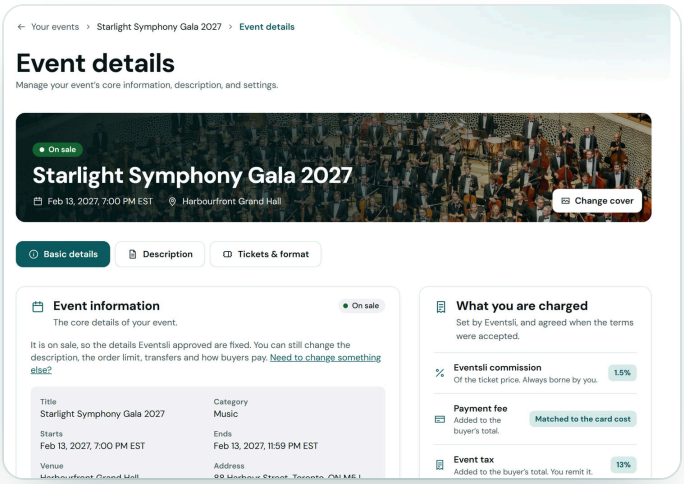

Eventsli
DISCOVER - BOOK - ENJOY

From idea to on sale, step by guided step.

The builder asks only what each kind of event needs, saves as you go and shows exactly what's left before an event can be submitted.

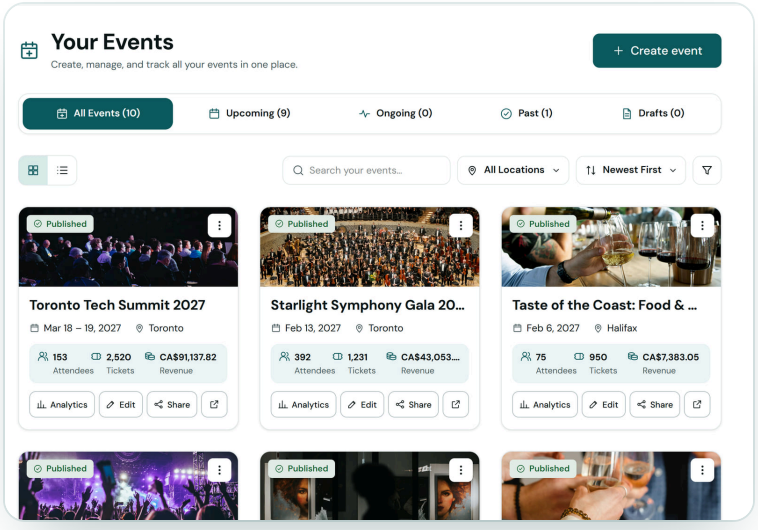

Ticketed event or display-only listing

Event details, fees agreed and quick settings

1. Overview
2. Event details
3. Ticket types
4. Seating map
5. Table categories
6. Page & branding
7. Discounts
✓ Submit

Your events — every event with sales, capacity and quick links

Smart Event Creator

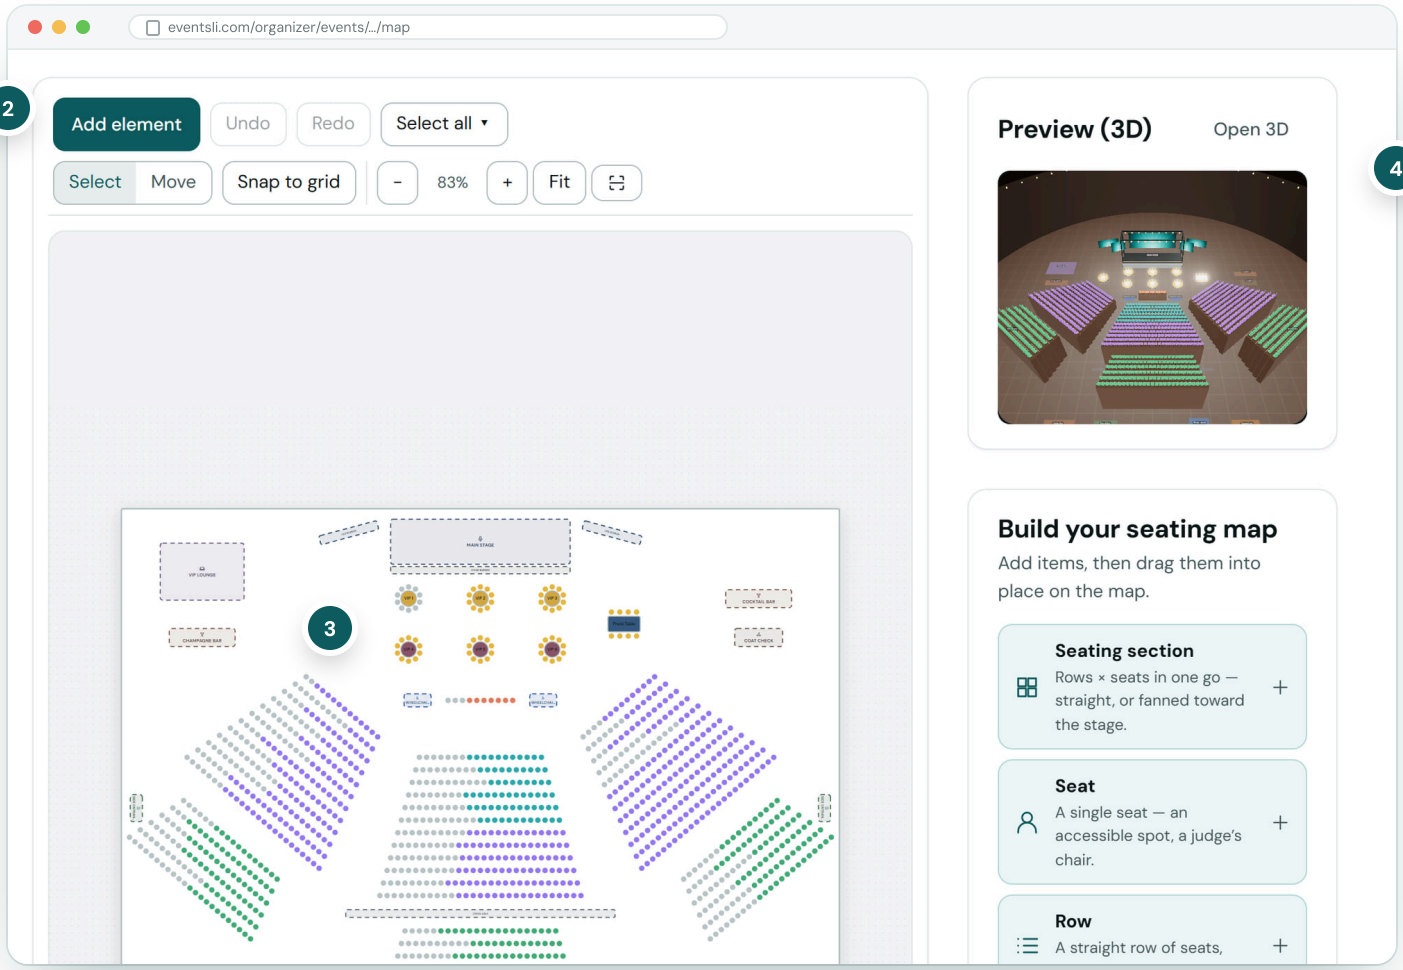

Describe the event the way you'd tell a friend — or upload the poster — and AI drafts the whole listing: title, dates, venue, ticket prices and running order. Review, edit and save as a draft.

Personal details such as emails and phone numbers are stripped before anything is sent.

Eventsli
DISCOVER - BOOK - ENJOY

Design any room.
Theatre to stadium.

The Venue Studio is a full seating-design tool inside the browser. Drop in fanned sections, straight rows, single seats and tables; place stages, bars, screens and entrances; assign ticket types — and watch the 3D preview update live.

1 **Venue** Name, photo, accessibility

2 **Layout** Sections, rows, seats, tables

3 **3D** Lighting, rake, stage, screens

4 **360°** Views from real seats

5 **Preview** Buyer view & seat holds

★ **Five workspaces, one flow**
A stepper that mirrors how a venue is really planned.

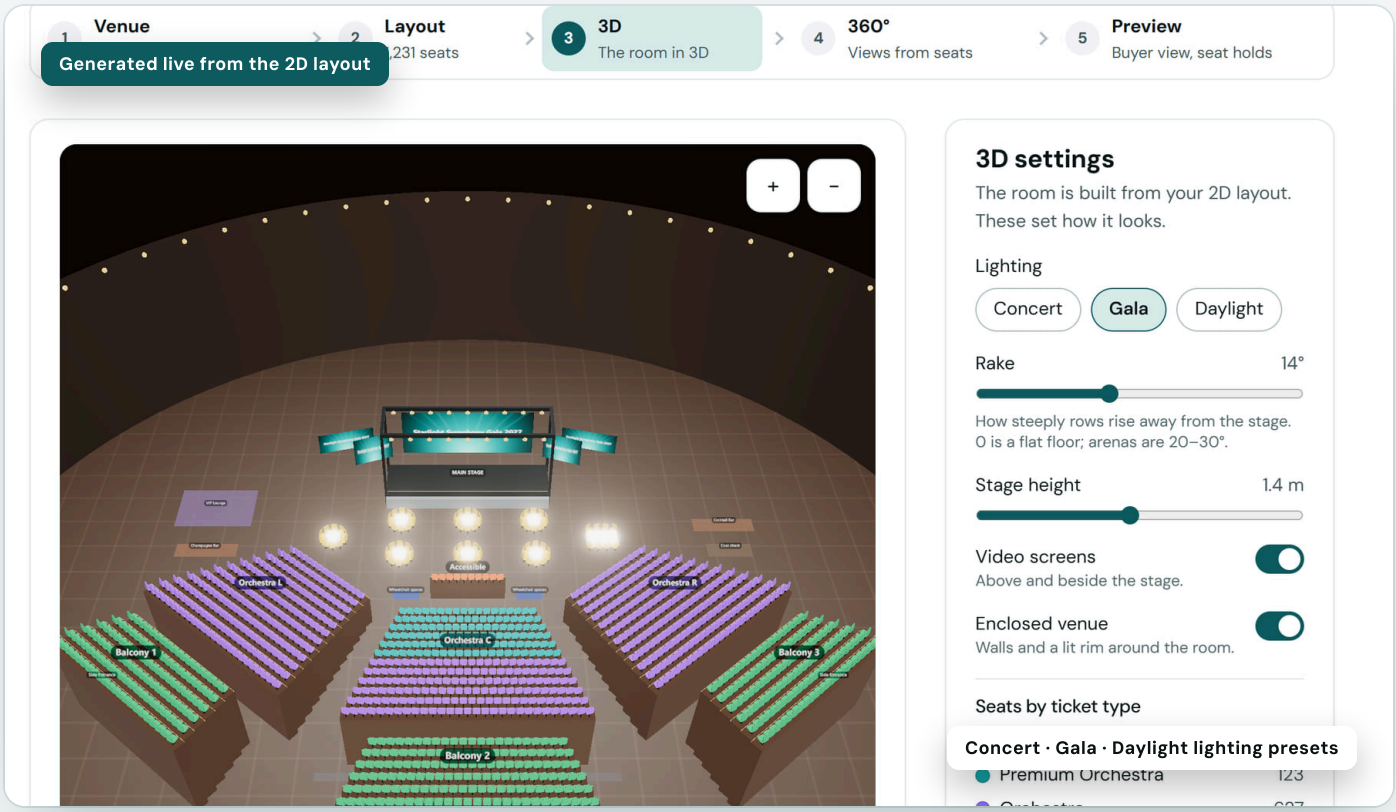

2 **Precision tools**
Undo/redo, multi-select, snap-to-grid, zoom and fit — plus print & export.

3 **Smart sections**
Rows × seats in one go — straight or fanned toward the stage, labelled automatically.

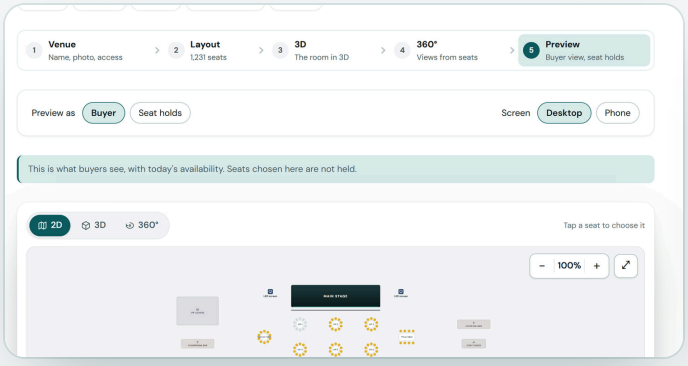

4 **Live 3D preview**
Every change is reflected in the generated room instantly.

Eventsli
DISCOVER - BOOK - ENJOY

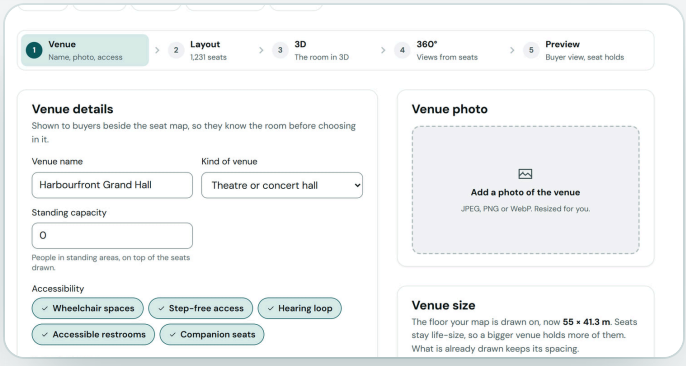

A digital twin of your venue.

3D settings Lighting presets, rake, stage height, video screens and enclosed walls — with every seat counted by ticket type.

Preview & holds See exactly what buyers see; hold seats for production, press or guests.

Venue & size Ballroom, hall, arena or stadium presets — plus the venue card buyers see.

1,231 seats on the demo map

63 tables, bookable whole or by seat

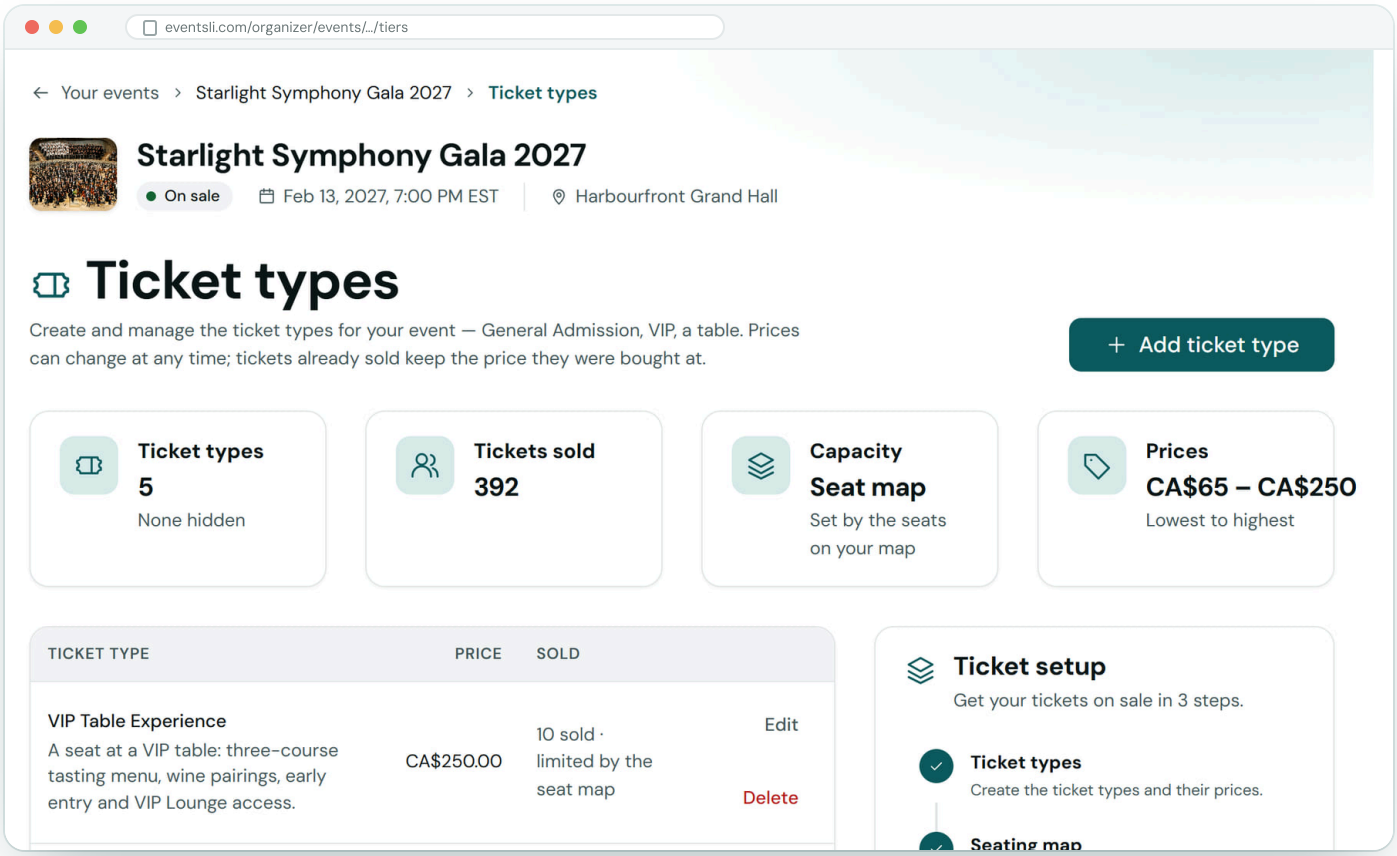

20 zones — bars, screens, entrances

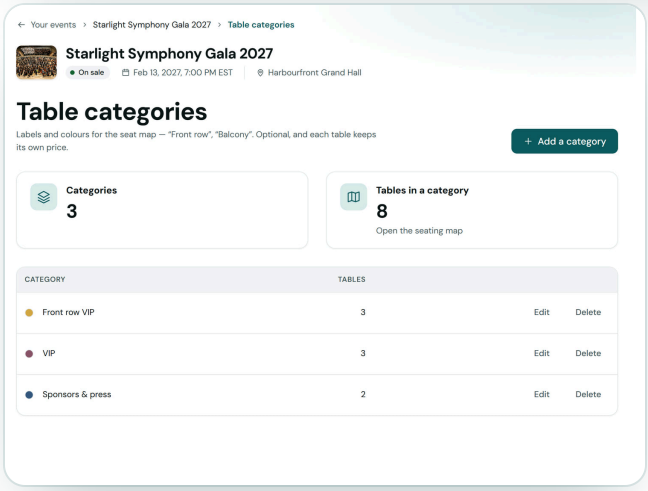

183 m stadium-scale floor, built in

Eventsli
DISCOVER - BOOK - ENJOY

Price every seat exactly as you mean to.

Ticket types carry the price, the rules and the story. Table categories group tables for galas and dinners. Both connect straight to the seats on the map.

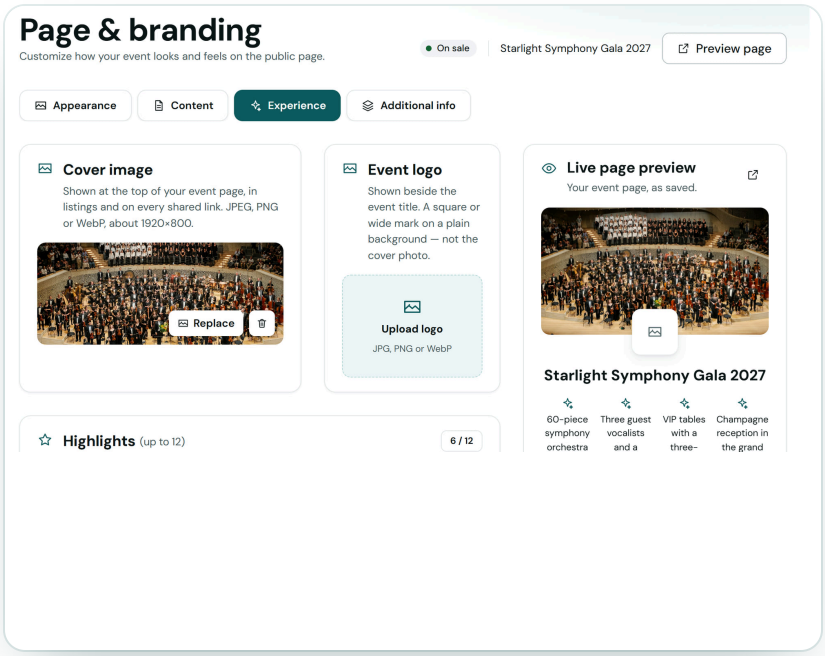

- Five ticket kinds — standard, general, VIP, early bird and complimentary
- Sales windows, per-order limits and hidden invitation-only tiers
- A "What's included" card per ticket type, shown before buying
- Live price changes are logged; sold orders keep their original price
- Issued tickets keep an immutable snapshot of table and seat

Eventsli
DISCOVER - BOOK - ENJOY

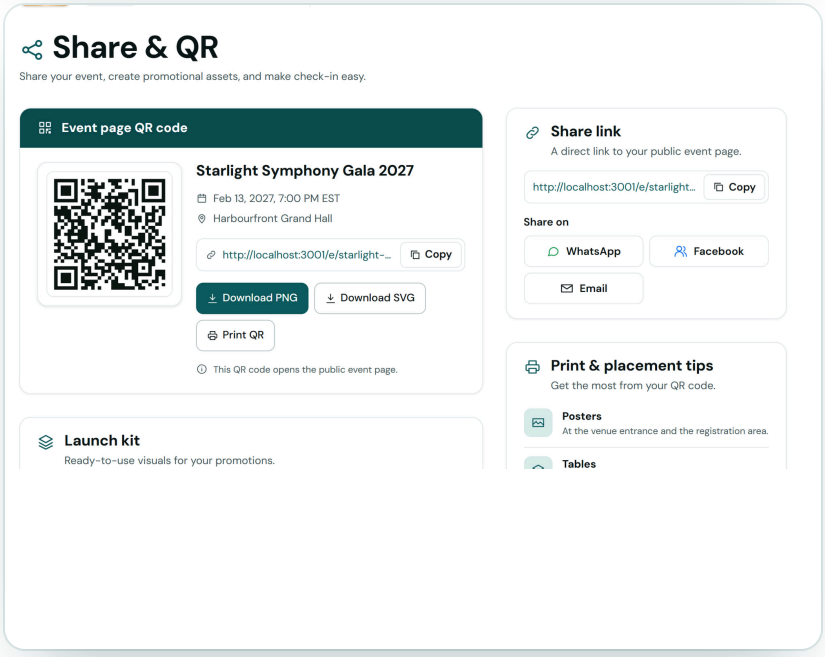

Make it beautiful.
Then make it spread.

PAGE & BRANDING

Your event, your look

Cover and logo, up to 12 highlights, map pin, photo & video gallery, schedule and lineup, sponsors and policies — with a live preview of the public page as you type.

SHARE & QR

A launch kit in one click

Event QR in PNG & SVG, print placement tips, ready-made 1080×1080 posts and 1080×1920 stories, one-tap WhatsApp, Facebook and email sharing, and a deep link — with its own QR — for every ticket type.

Launch kit
Social posts from the event artwork

Search appearance
Google preview built in

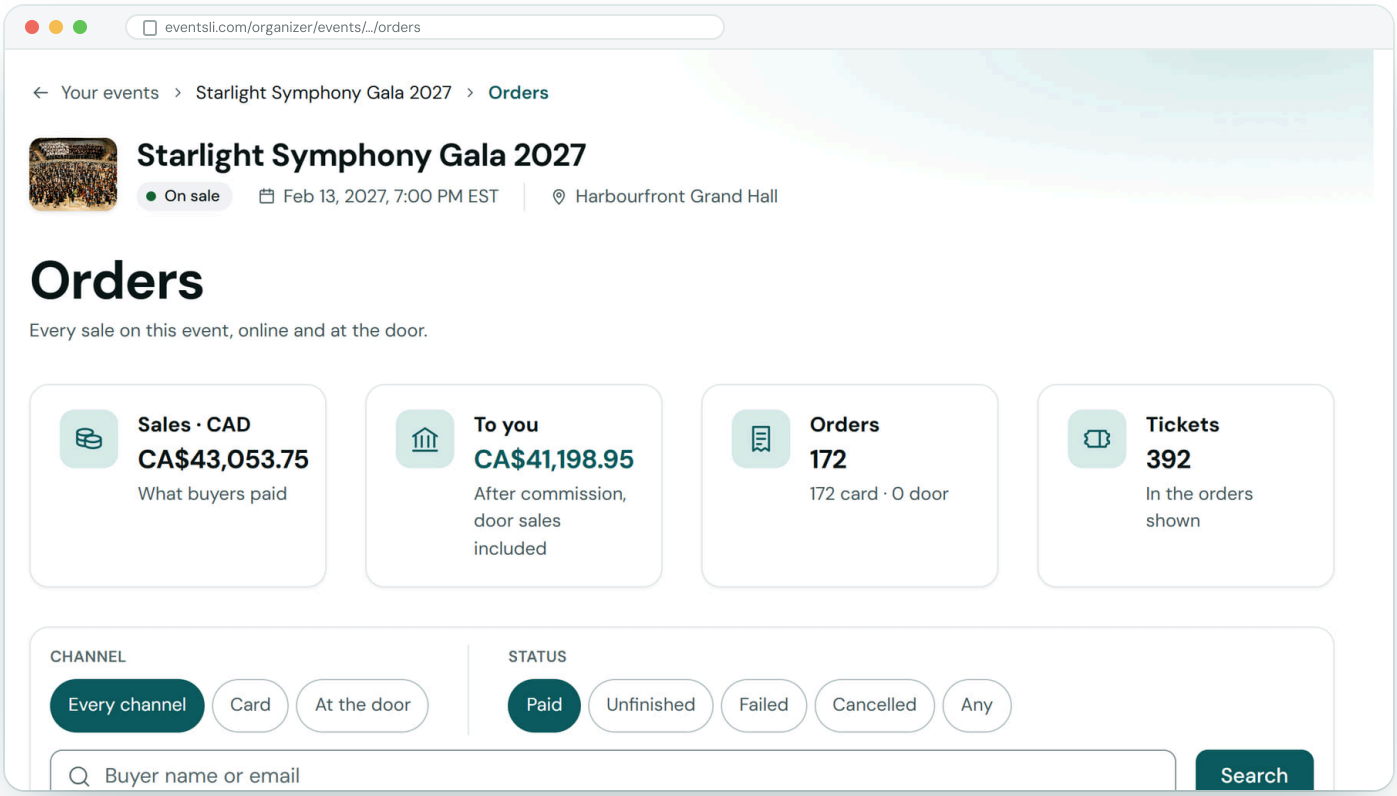

Tier links
For VIP invites and early-bird posts

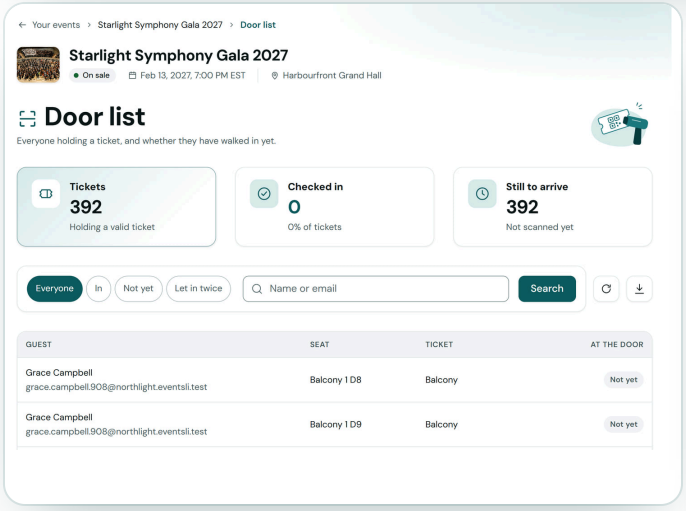

QR everywhere
Posters, tables and screens

Eventsli
DISCOVER - BOOK - ENJOY

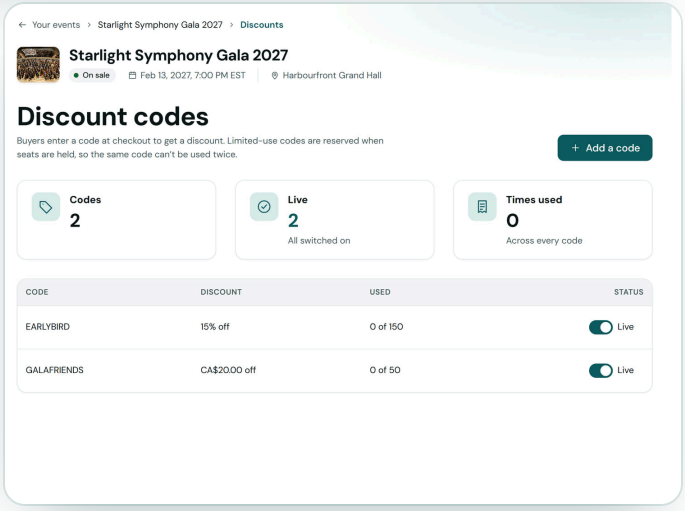

Every order.
Every guest. Every code.

Find any buyer in seconds, see exactly what they bought and where they sit, and manage who gets in — all from the same event workspace.

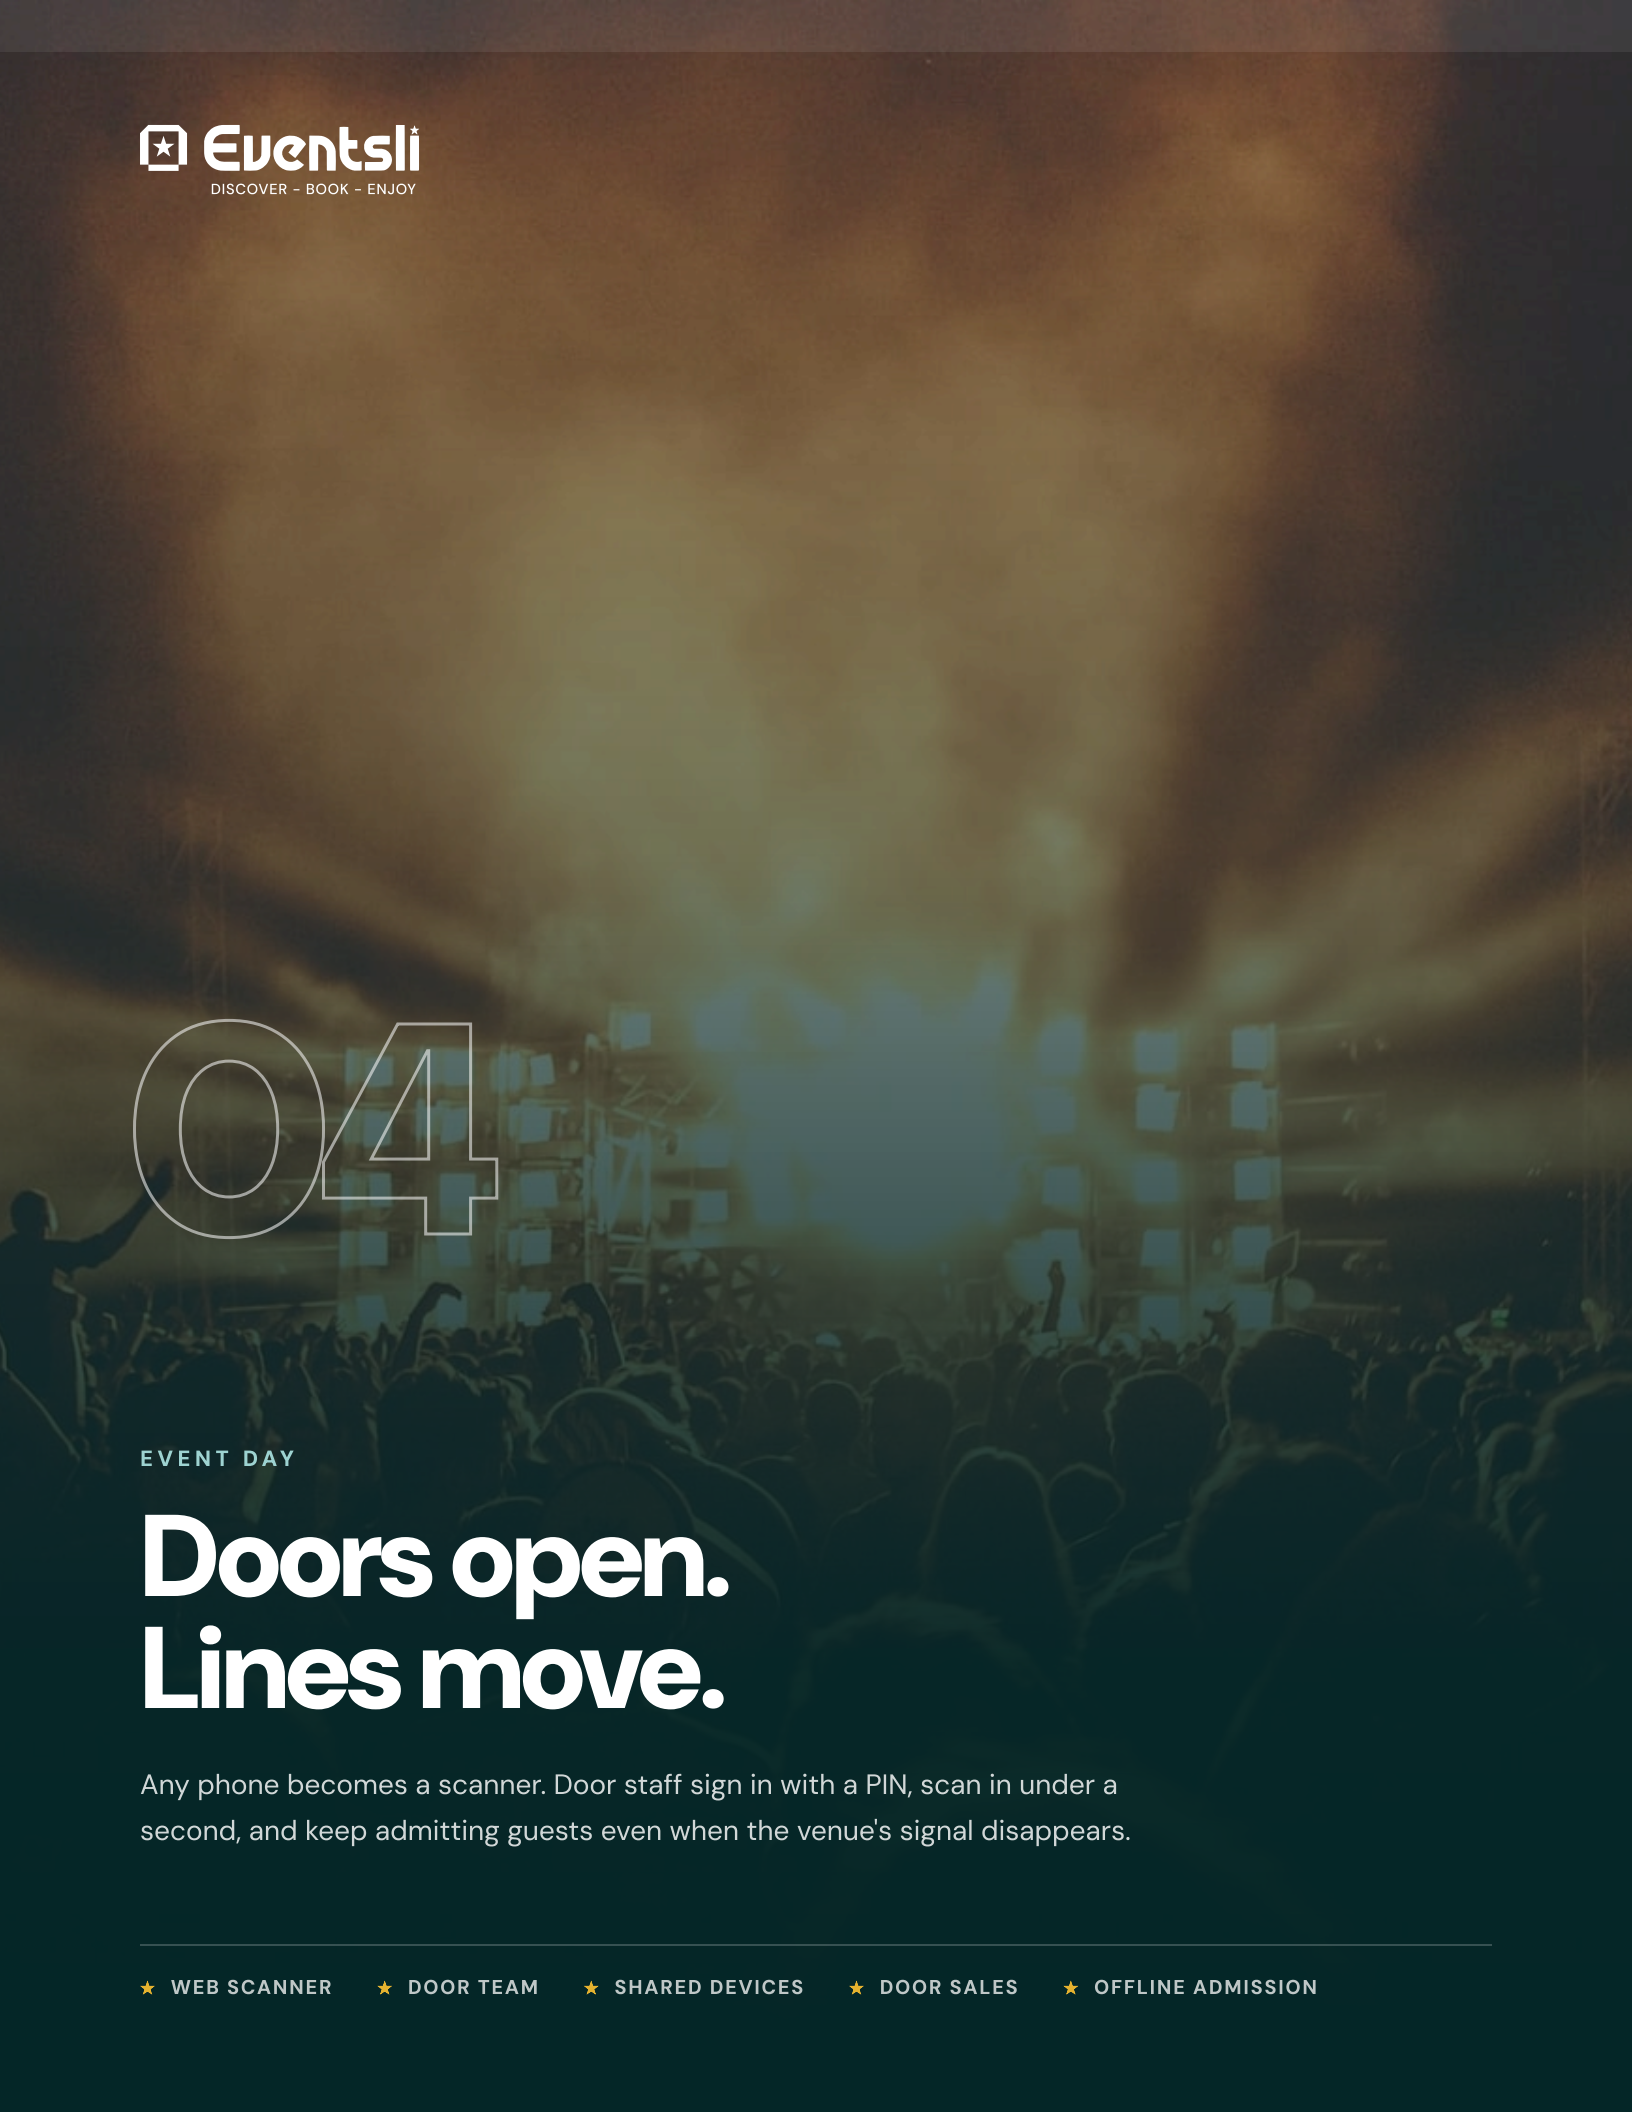

Door list — every ticket, seat and check-in status

Discount codes — percentage or fixed, limits and live toggles

04

EVENT DAY

Doors open. Lines move.

Any phone becomes a scanner. Door staff sign in with a PIN, scan in under a second, and keep admitting guests even when the venue's signal disappears.

★ WEB SCANNER ★ DOOR TEAM ★ SHARED DEVICES ★ DOOR SALES ★ OFFLINE ADMISSION

Eventsli
DISCOVER - BOOK - ENJOY

Check-in that keeps the line moving.

— AT THE DOOR

Check-in that keeps the line moving

Every ticket carries its own QR code. Your door team opens Eventsli Gate on any phone, points it at the code, and gets the answer in a second — seat, ticket type and name included.

Any phone is a scanner
Add your door team by email, or register a tablet with a PIN. Nothing to install.

Keeps working offline
No signal at the venue? Scans are kept on the device and uploaded when it returns — no ticket gets in twice.

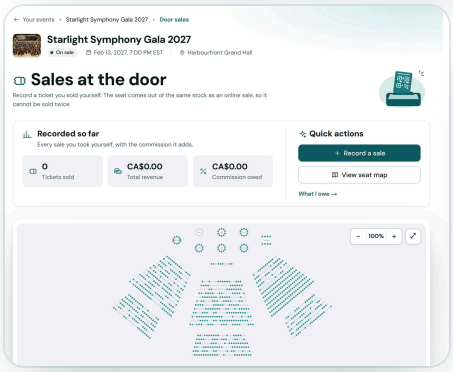

One clear answer per scan
"Welcome in", "Already used at 19:02" or "Wrong event" — and a mistaken admit can be undone.

Arrivals, live
Watch check-ins and sales together on your dashboard while the doors are open.

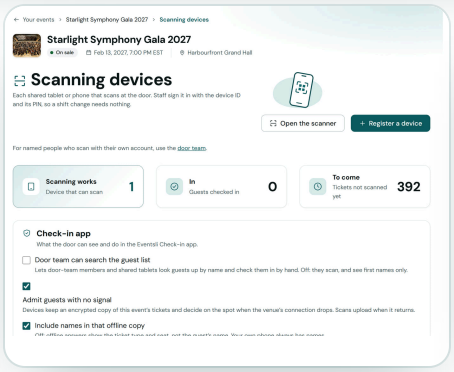

WHAT YOUR DOOR TEAM SEES

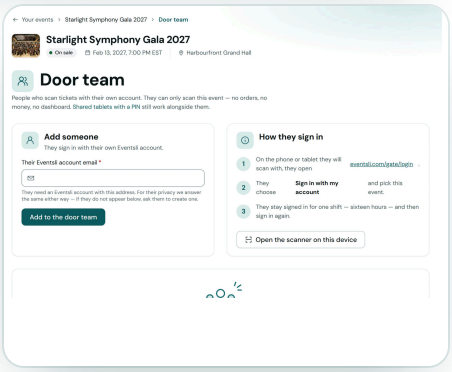

WHAT YOUR GUEST BRINGS — ON THEIR PHONE OR PRINTED

Door sales from the same live seat stock

Scanning devices with a PIN

Door team accounts

Any phone is a scanner
No install — open the web scanner, or use the Eventsli Scanner app for iOS and Android (rolling out).

Keeps working offline
Signed QR codes are verified on the device; scans sync when signal returns.

One clear answer
"Welcome in", "Already used at 19:02" or "Wrong event" — and a mistaken admit can be undone.

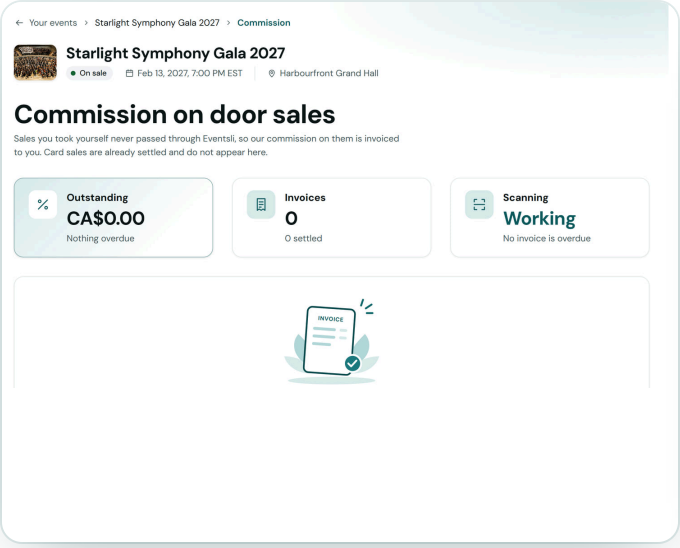

Built for rush hour
Load-tested at 50 scans per second with a 68 ms p95 response.

Eventsli
DISCOVER - BOOK - ENJOY

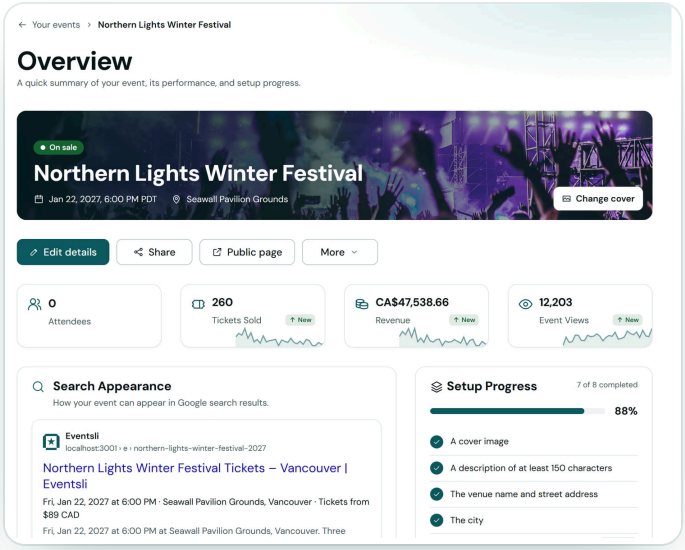

Transparent money. Paid straight to you.

Card payments are charged directly on the organizer's own Stripe account — the organizer is the merchant of record and is paid out by Stripe. Eventsli's commission is a separate, visible line, never buried in the ticket price.

EVERY ORDER, FOUR INDEPENDENT LINES		WHO BEARS IT
Face value	The organizer's ticket price	—
Event tax	% of face value, set per event (e.g. 13% HST)	**Buyer · organizer remits**
Eventsli commission	1.5% of face by default, adjustable per event	**Organizer, always**
Payment fee	"Auto" mode matches exactly what Stripe charges for that order	**Organizer's choice**

Commission on door sales, invoiced transparently

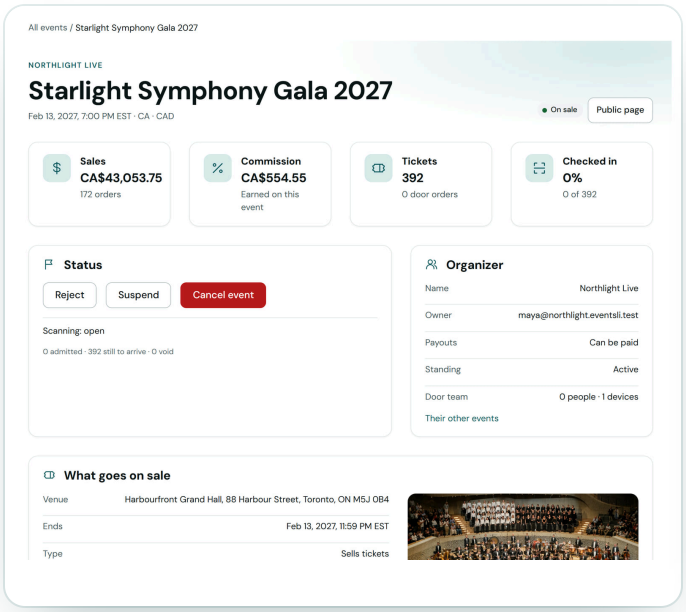

Per-event sales, revenue and setup progress

- Every amount is an integer number of cents — no rounding drift
- Refunds and disputes reconciled even when Stripe events arrive out of order
- Every payment write carries an idempotency key — retries never double-charge
- Manual payments (e-Transfer, bank, cash) recorded with who confirmed them

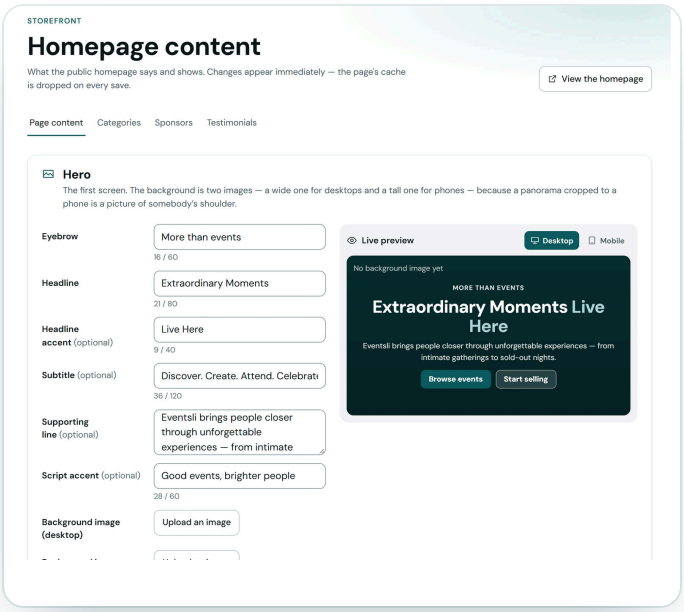

Eventsli
DISCOVER - BOOK - ENJOY

An admin console for the whole marketplace.

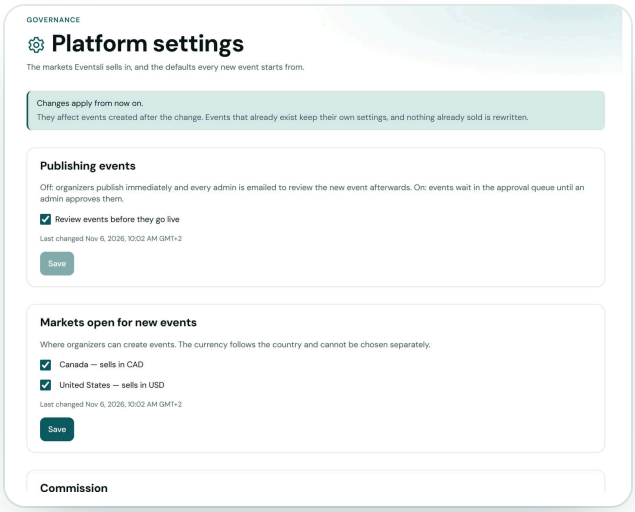

Approvals, markets, fees, the storefront and a complete audit trail — so the team running Eventsli has the same clarity organizers do.

Event review — sales, status, organizer, fees and tax at a glance

Homepage content — edit the storefront with a live desktop & mobile preview

Review before live

An optional approval queue for new events.

Markets

Open Canada (CAD) and the United States (USD).

Default fees

Commission, tax on commission and card fee.

Organizers & accounts

Review, suspend or ban — with reasons.

Cancellations

Organizer requests handled in one queue.

Audit log

Every admin action and price change, recorded.

Eventsli
DISCOVER - BOOK - ENJOY

Built like it handles other people's money.

Because it does. Eventsli's rules live where they can't be bypassed — in the database, in tested middleware and in one audited money module.

No double-sold seats

Seat holds, table holds and tier quantities are enforced atomically by the database.

Prices that can't drift

Sold order amounts are immutable by trigger; every live price change is logged.

Authorisation in one place

The browser never queries the database; every request passes tested middleware.

Cryptographically signed tickets

ES256-signed QR codes verify on the door device — even offline — with key rotation.

Hardened web layer

Per-request CSP nonces, strict image hosts, rate limits and login lockout.

1,700+ automated tests

Units, integration on a real database, migrations and accessibility — in CI on every change.

1,700+	50/s	68 ms	0
automated tests in CI	scan rate load-tested at the door	p95 check-in response under load	floating-point money — integer cents only

> "Every amount is an integer number of cents. Every external write carries an idempotency key. Every business rule is a database constraint."
>

Eventsli
DISCOVER - BOOK - ENJOY

Ten reasons organizers switch — and stay.

01 Seat maps buyers love
2D, generated 3D and 360° views on every reserved event.

02 A Venue Studio, included
Design any room — no CAD file, no 3D artist, no extra fee.

03 Your money, your account
Direct charges to the organizer's Stripe; payouts by Stripe.

04 Fees in plain sight
1.5% commission and a card fee that matches real cost.

05 Tables done properly
Sell galas by the table or the seat, with private invite tables.

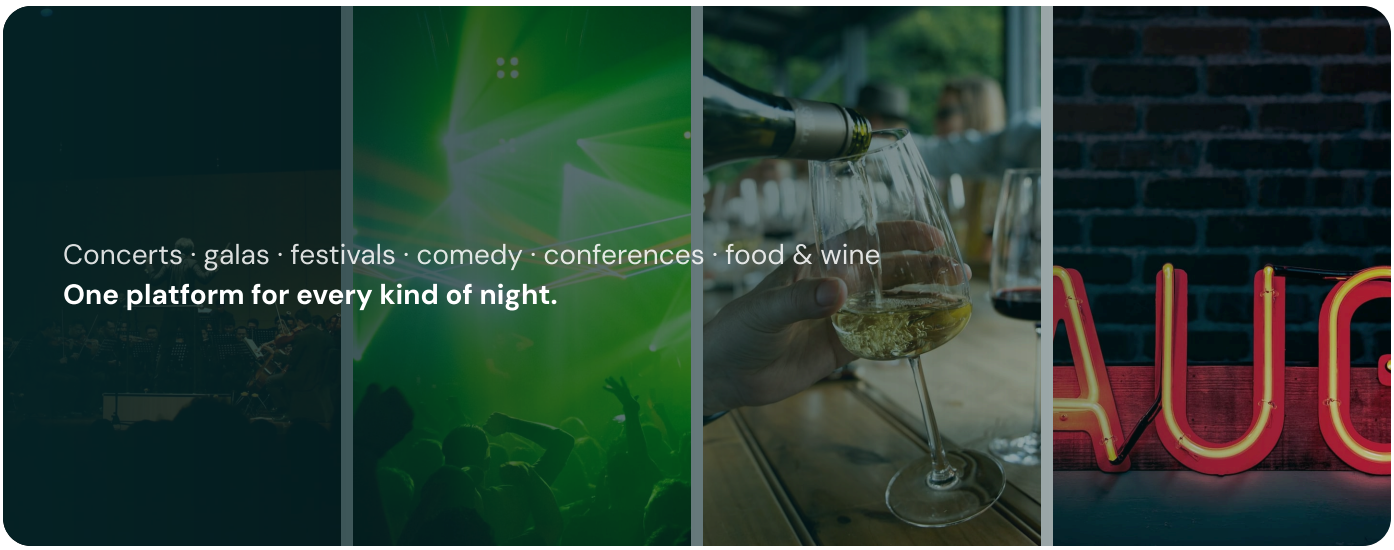

06 Tickets that sell themselves
"What's included" cards, highlights and rich event pages.

07 Marketing built in
Launch kits, QR codes, tier links and search previews.

08 A door that never stops
Web and native scanners with true offline admission.

09 AI that saves an afternoon
Describe it or upload a poster; get a full draft listing.

10 Made for Canada & the US
CAD and USD, per-event sales tax, Interac e-Transfer.

	TYPICAL TICKETING TOOL	EVENTSLI
Choose an exact seat	Static image or best-available	**Live 2D · 3D · 360°**
Design your own seating	Paid add-on or support ticket	**Venue Studio, self-serve**
Where buyer money lands	Often held by the platform	**Organizer's own Stripe**
Check-in without signal	Often not possible	**Signed, verifiable offline**

Your next great night starts here.

Put your event on sale with interactive seating, transparent fees and a door that never stops — or find something unforgettable to do this weekend.
